

# Temporary Traffic Management (TTM) - Category 1

## Non Practitioner Course:

## Combined TC1 and TMI1 Course (3 Days)

TC1 (NP) Traffic Controller for Urban Streets and Low Volume Roads

TMI1 (NP) Traffic Management Implementer for Urban Streets and Low Volume Roads

### Training Course (3 Days)

This Non Practitioner course (no post practical required) is designed for workers who do not directly undertake Temporary Traffic Management roles at worksites. This course would suit workers that need the knowledge about traffic management, but do not perform a traditional Traffic Management role.

Learners will complete a theory and simulated assessment but will not complete the post course practical experience and final assessment to achieve the Skill Sets required to work on live Temporary Traffic Management sites.

### Course Outcome and Award

On successful completion of the assessment, Learners will be issued with:

- Certificate of Completion issued by ATC

### Course Content

- Communication techniques using equipment and systems
- Control traffic with a stop-slow bat
- Identify and assess risks and implement controls
- Prepare to implement traffic management plans
- Set out and monitor traffic guidance scheme
- Position, set up and program portable traffic control devices
- Operating portable traffic control devices and using signs to control traffic
- Shut down work activities and remove portable traffic control devices and signage

Subsidies Available
