

Temporary Traffic Management (TTM) - Category 1

Non Practitioner Course:

Traffic Management Designer (3 Days)

TMD1 (NP) Traffic Management Designer Skill Set for Urban Streets and Low Volume Rural Roads

Training Course (3 Days)

This Non Practitioner course (no post course practical experience required) is designed for workers who do not directly work in Temporary Traffic Management Design roles. This course would suit workers that need the knowledge about traffic management design, Traffic Management Plans (TMP) and Traffic Guidance Schemes (TGS)

Students will complete a theory and part of a practical design assessment but will not complete the post course practical assessment to achieve the Skill Set required to work as a Traffic Management Designer.

Bring your own device. A laptop and charger is required to conduct in course assessment activities.

Course Outcome and Award

On successful completion of the assessment, Students will be issued with:

- Statement of Completion issued by ATC
- TTM card for Non Practitioners issued by DIT (Department for Infrastructure and Transport)

Course Content

- Plan and implement risk management processes including identifying hazards and developing risk controls
- Auditing the risk management process and completing records
- Establish context for traffic management plan and traffic guidance scheme
- Prepare traffic management plan and associated traffic guidance schemes
- Review traffic management plan implementation

Student Requirements

- Ability to read, write, speak and understand English
- Students must be at least 18 years of age
