

# Temporary Traffic Management (TTM) - Category 1

## TC1 and TMI1 Combined Course (4 Days)

(TC1) RIIS00058 Traffic Controller Skill Set for Urban Streets and Low Volume Rural Roads  
(TMI1) RIIS00060 Traffic Management Implementer Skill Set for Urban Streets and Low Volume Rural Roads

Units include:

- RIICOM201E Communicate in the workplace
- RIIWS205E Control traffic with stop-slow bat
- RIIWS206 Control traffic with portable traffic control devices and temporary traffic signs
- RIIRIS301E Apply risk management processes
- RIIWS302E Implement traffic management plans
- RIIWS303 Position, set up and program portable traffic control devices

### Training Course (3 Days)

This is an introduction course for Students who will be responsible for traffic control and traffic management implementation on urban streets and low volume rural roads (Category 1). The course includes the theory components and practical training.

### Post Course – to be completed within 6 months

Students are required to complete the following in a Temporary Traffic Management workplace:

- TC1 - a minimum of **20 hours of practical experience** and record evidence in the log book provided.

Students can complete the practical experience in their own workplace environment on the relevant Category type roads. For Students who are not currently working, ATC will organise the practical work placement for them with a Traffic Management Company approved by ATC.

### Practical Experience (TMI1) and Assessment (TMI1 & TC1) (1 Day) to be completed within 6 months

On completion of the log book, Access Training Centre will provide a suitable Temporary Traffic Management (TTM) live site work environment for the Student's practical experience for TMI1 with TTM qualified operators to supervise and support Students. Two observations will be completed and documented by a suitably qualified Supervisor while implementing different live traffic setups as detailed on Traffic Guidance Schemes (TGS).

On completion of the TMI1 practical experience, Students will be required to successfully complete the Final TMI1 Assessment autonomously interpreting a TGS and implementing the required TTM set up on a live traffic project as advised by the Assessor. Students will also complete the TC1 Assessment on this live worksite.

### Course Outcome and Award

On successful completion of the assessment, Students will be issued with:

- Statement of Attainment issued by ATC
- TTM card issued by DIT (Department for Infrastructure and Transport)

### Course Content

- Communication techniques using equipment and systems
- Control traffic with a stop-slow bat
- Identify and assess risks and implement controls
- Prepare to implement traffic management plans
- Set out and monitor traffic guidance scheme
- Position, set up and program portable traffic control devices
- Operating portable traffic control devices and using signs to control traffic
- Shut down work activities and remove portable traffic control devices and signage

### Student Requirements

- Students must hold the unit CPCCWHS1001 Prepare to work safely in the construction industry or its equivalent unit
- Ability to read, write, speak and understand English
- Students must be at least 18 years of age
- **Students are required to be reaccredited every 3 years**
