

Temporary Traffic Management (TTM) - Category 1 TC1 and TMI1 Combined Course (4 Days)

(TC1) RIISS00058 Traffic Controller Skill Set for Urban Streets and Low Volume Rural Roads
(TMI1) RIISS00060 Traffic Management Implementer Skill Set for Urban Streets and Low Volume Rural Roads

Units include:

- RIICOM201E Communicate in the workplace
- RIIWS205E Control traffic with stop-slow bat
- RIIWS206 Control traffic with portable traffic control devices and temporary traffic signs
- RIIRIS301E Apply risk management processes
- RIIWS302E Implement traffic management plans
- RIIWS303 Position, set up and program portable traffic control devices

Training Course (3 Days)

This is an introduction course for Learners who will be responsible for traffic control and traffic management implementation on urban streets and low volume rural roads (Category 1). The course includes the theory components and practical training.

Post Course – to be completed within 6 months

Learners are required to complete the following in a Temporary Traffic Management workplace:

- TC1 - a minimum of **20 hours of practical work experience** and record evidence in the log book provided.
- TMI1 - experience implementing traffic management plans including at least 3 different types of set ups. Examples include lane closure, lateral shift, managing traffic at an intersection and controlling site construction vehicles.

Learners can complete the practical work experience in their own workplace environment on the relevant Category type roads. For Learners who are not currently working, ATC will organise the practical placement for them with a Traffic Management Company approved by ATC.

Practical Assessment (1 Day)

On completion of the practical experience and Log Book requirements, Learners are required to successfully complete the Assessment on a live temporary traffic management site arranged by ATC. Learners will be assessed on their traffic control skills and implementation of 3 different traffic management set ups.

Small Learner groups hosted on a live ATC controlled TTM site, with separate sessions scheduled to complete assessments.

TMI assessments occur during the morning session, TC assessments occur during the afternoon session. Qualified TTM operators will be present to provide additional support and supervision to ensure a safe environment for the completion of individual assessments.

Course Outcome and Award

On successful completion of the assessment, Learners will be issued with:

- Statement of Attainment issued by ATC
- TTM card issued by DIT (Department for Infrastructure and Transport)

Course Content

- Communication techniques using equipment and systems
- Control traffic with a stop-slow bat
