

Temporary Traffic Management (TTM) - Category 2 TC2 and TMI2 Combined Course (3 Days)

(TC2) RIISS00059 Traffic Controller Skill Set for High Volume Roads

(TMI2) RIISS00061 Traffic Management Implementer Skill Set for High Volume Roads

Units include:

RIIWH5207 Control Traffic on high volume roads

RIIBEF301D Run on-site operations

RIIWH5304 Implement traffic management plans on high volume roads

Training Course (2 Days)

This course is designed for Students who:

- Have completed TC1 (Category 1) Traffic Controller Skill Set for urban streets and low volume rural roads
- Have completed TMI1 (Category 1) Traffic Management Implementer Skill Set for urban streets and low volume rural roads
- Have evidence of the required practical experience on live TTM sites as listed in the Student Requirements below
- Will now be responsible for traffic control and traffic management implementation on high volume roads (Category 2)

Post Course – to be completed within 6 months

Students are required to complete the following in a Temporary Traffic Management workplace:

- TC2 - a minimum of **20 hours of practical work experience**, applying skills and knowledge controlling traffic on Category 2 roads and record evidence in the log book provided.

Students can complete the practical experience in their own workplace environment on the relevant Category type roads. For Students who are not currently working, ATC will organise the practical placement for them with a Traffic Management Company approved by ATC.

Practical Experience (TMI2) and Assessment (TMI2 & TC2) (1 Day) to be completed within 6 months

On completion of the log book, Access Training Centre will provide a suitable Temporary Traffic Management (TTM) live site work environment for the Student's practical experience for TMI2 with TTM qualified operators to supervise and support Students. Two observations will be completed and documented by a suitably qualified Supervisor while implementing different live traffic setups as detailed on Traffic Guidance Schemes (TGS). Students will also be observed demonstrating skills while operating as a Traffic Controller.

On completion of the TMI2 practical experience, Students will be required to successfully complete the Final TMI2 Assessment autonomously interpreting a TGS and implementing the required TTM set up on a live traffic project as advised by the Assessor. Students will also complete the TC2 Assessment on this live worksite.

Course Outcome and Award

On successful completion of the assessment, Students will be issued with:

- Statement of Attainment issued by ATC
- TTM card issued by DIT (Department for Infrastructure and Transport)

Subsidies Available
