Temporary Traffic Management (TTM) - Category 2

TMD2 Traffic Management Designer (1 Day)

RTO No: 40101

(TMD2) RIISS00064 Traffic Management Designer Skill Set for High Volume Roads

Units include:
RIICWD538 Prepare traffic management plans and traffic guidance schemes for high volume roads

Training Course

This is a course for Students who will be responsible for developing traffic management plans (TMP) and traffic guidance schemes (TGSs) on High Volume roads (Category 2).

Bring your own device. A laptop and charger is required to conduct in course and post course assessment activities.

Post Course – to be completed within 6 months

Students are required to complete two traffic management plans (TMP) and a minimum of one associated Traffic Guidance Scheme (TGS) in the workplace, using a live project.

To complete the post course assessments, the student will need access to a suitably qualified and experienced Traffic Management Designer to guide and act as a Supervisor while the TMP/TGSs are developed.

It is highly recommended that you have access to the TMP design software being used in your workplace.
Examples of TMP design software includes; Rapid Plan, Auto Cad, Road Manager, Corel Draw, MS Paint, Google Draw.

Course Content

- Plan and implement risk management processes including identifying hazards and developing risk controls
- Auditing the risk management process and completing records
- Establish context for traffic management plan and traffic guidance scheme
- Prepare traffic management plan and associated traffic guidance schemes
- Review traffic management plan implementation
